

Pioneer High School
ESLRs
Expected School Wide Learning Results

Creators and Innovators

Essential Characteristics: Students approach the world with intellectual curiosity; are proactive communicators and global innovators.

Essential Outcomes: Every student will be able to . . .

- demonstrate innovative and proactive problem solving
- actively participate in reciprocal communication for quality outcomes.
- display leadership, adaptability, and personal accountability in their commitment to lifelong learning and future planning.

Critical Thinkers and Problem Solvers

Essential Characteristics: Students are critical thinkers who evaluate processes and outcomes objectively, active and productive members of student initiated groups, and self-directed problem solvers.

Essential Outcomes: Every student will be able to . . .

- recall prior knowledge, interpret given information to evaluate long and short term goals, and create plans to solve problems.
- resolve problems using different types of reasoning skills (inductive, deductive, investigative, comparison, analysis).
- formulate conclusions, analyze results, and reflect on the process used for determining the final outcome.

Collaborators and Communicators

Essential Characteristics: Students are skillful at using a variety of tools and ideas to effectively communicate and collaborate with others.

Essential Outcomes: Every student will be able to . . .

- demonstrate proficient articulation of ideas using oral, written, and non-verbal communication in both personal and community endeavors.
- collaborate effectively and respectfully in diverse environments while valuing individual contributions.
- use technology and networking tools to access, manage, integrate, evaluate, and synthesize information to successfully function in a knowledge based economy.
